

Intro to Parallel Computing and Scientific Computation

Shannon Gallagher

January 15, 2016

Contents

1	January 15, 2015	1
1.1	Objectives	1
2	Overview of Class	1
3	Projects and Homework	2

1 January 15, 2015

1.1 Objectives

- sequential algorithm to parallel algorithm
- learn more about computers
- get better at documenting and writing packages

To take this class or not. It seems pretty useful, but Friday evenings. . .
Week 8 onward are parallel things which seems pretty useful.

2 Overview of Class

schedule lecture notes and assignments

3 Projects and Homework

Project Criterion

- Start thinking of a project (ABM)
- homework - do it but not graded, can get answers

`cats <- 4`
